Friday 26 and Saturday 27 May

Presentation of the "Porte Aperte al Trasimeno" event and the routes and environmental, historical and artistic initiatives at all the welcome points in each town around Lake Trasimeno and at participating accomodations.

Saturday 27 and Sunday 28 May

Guests will be able to participate in the leisure and cultural activities, in the tasting of local delicacies and enjoy the shows planned in the eight main towns that make up the Trasimeno region.

The “Porte Aperte al Trasimeno” initiative was designed to increase awareness of the Trasimeno region, which encompasses eight towns: Castiglione del Lago, Città della Pieve, Magione, Paciano, Panicale, Passignano sul Trasimeno, Piegara and Tuoro sul Trasimeno.

The blue of the lake is surrounded by charming hilltop villages and lakeside towns steeped in history, in art and culinary tradition, very real treasure troves of culture and tradition all of which give the Trasimeno area its distinct characteristics.

The quality of the environment is constantly monitored by the Regional Environmental Protection Agency, which collects and analyses the air, water and soil to ensure conformity to both Italian and European quality standards.

Life around Lake Trasimeno is slow-paced, everyone knows one another and you can see the locals chatting in groups on the piazzas just as they have done since time immemorial. A unique sense of tranquil harmony reigns here, one that the Etruscans regarded as something of an earthly version of heaven, a place where life is good, where hospitality and warmth come naturally.

Irish Point lacemaking was introduced in the early 1900s by the Marchesa Elena Guglielmi. An increase in the demand for lace encouraged several of the local women to start up their own artisanal industry. The museum houses some fine examples of the magnificent work these ladies did.
