THE CULTURAL AND NATURAL BEAUTY
OF TRASIMENO

"Porte Aperte al Trasimeno", or "Open Doors at Trasimeno", was designed to increase awareness of the Trasimeno area, which comprises 8 municipalities:

Castiglione del Lago, Città della Pieve, Magione, Paciano, Panicale, Passignano sul Trasimeno, Piegaro and Tuoro sul Trasimeno.

The landscape is graced with the blue hues of the lake, with hilltop towns steeped in history, art and flavours that are the very real guardians of culture and tradition. The environment is under constant and close control, monitored by the Regional Environmental Protection Agency, which studies samples of air, water and the soil to ensure that all conform to the strict regulations stipulated by both Italian and European law.

Life at Lake Trasimeno is slow-paced, everyone knows one another and the piazzas are hubs of encounter and social interaction. There is a gentle harmony here that makes this region unique, a harmony that the Etruscans had already identified as a representation of heaven on earth, a place where life was good, where hospitality and human warmth still reigns.

Plenty of activities aimed at sustainable tourism. Free tours to discover the beauty of Trasimeno. Book a stay at any of the Porte Aperte-affiliated accommodations and choose the tour that best suits your interests. FISHERMAN FOR AN HOUR

Every morning of the year, regardless of the weather, the mist or the northern winds, the rising sun finds the local fisherman busy at work on the lake, working their nets between rows of poles (tofi) in boats that have raised bows and dot the great lake with splashes of colour. Pike, tench, eel, carp and a local variety of whitebait thrive in Lake Trasimeno because of the very mild saline quality of the water, which gives the fish caught here exquisite quality, both in terms of flavour and nutrition.

This race is a re-enactment of the last (1495) battle between two aristocratic Perugian families: the Baglioni and the Degli Oddi. It was a bloody battle that put Passignano at the centre of military operations when a small battalion of the Degli Oddi had to flee, boats on their backs, from the castle, with the Baglioni and Della Corgna militias hot on their heels. On the last Sunday of July, the town's four districts face one another in a competition that takes place both on the water and on land, through the town centre.
